WEST VALLEY FOUNDATION

Gifts from donors like you help further the health and well-being of our community. Your investment supports a variety of initiatives, from providing scholarships to students in medically related education programs to defraying the cost of medication for cancer patients.

We strive to make healthy lifestyles attainable for **everyone** in Polk County. Every year, the population we serve grows as our residents age and health risks like the opioid epidemic and obesity increase. We work hard to make every patient's interactions with us exceptional in what we say and what we do, and your support makes this dream a reality.

We are committed to serving our community by doing whatever we can to save and improve lives – and we know you support this goal, too.

Your participation in the event – from sponsorship to making a donation – helps the West Valley Foundation continue this important work. Thank you for partnering with us!
